

LIGHT SIGNALS CONTROLLING TRAFFIC

TRAFFIC LIGHT SIGNALS

Red means 'Stop' wait behind the stop line on the carriage way

RED AND AMBER also means 'Stop'. Do not pass through or start until GREEN shows

GREEN means you may go on if the way is clear. Take special care if you intend to turn left or right and give way to pedestrians who are crossing

AMBER means 'Stop' at the stop line. You may go on only if the AMBER appears after you have crossed the stop line or are so close to it that to pull up might cause an accident.

A GREEN ARROW may be provided in addition to the full green signal if movement in a certain direction is allowed before or after the full green phase. If the way is clear you may go but only in the direction shown by the arrow. You may do this whatever other lights may be showing.

Alternately flashing red lights mean **YOU MUST STOP**

At level crossings, liftings bridges, airfields, fire stations etc.
